

Snapshots in Time

Game Play Instructions

Cooperative Game Play (2 or more players)

1. Form a group of 2 or more players. Arrange the cards on a table with the date sides facing down, or arrange in a stack with the date side facing down and shuffle. **DO NOT LOOK AT THE DATES ON THE BACK OF THE CARDS.**
2. Select one card, read the text and date out loud. Place this card dated side up in the middle of the table to start the timeline.
3. Have one group member select a card and read the text on the front of the card out loud and display the image for the rest of the group to see. **DO NOT LOOK AT THE DATE ON THE BACK OF THE CARD.**
4. As a group discuss whether the event occurred before or after the event on the card in the middle of the table. If the group decides it occurred earlier, place the newly drawn card to the left of the first card. If later, place it to the right. **DO NOT LOOK AT THE DATE ON THE BACK OF THE CARD.**
5. Repeat the process until all the cards have been placed. Turn the cards over to see how many were placed correctly.
