

Understanding the criteria

Check to see how well a student-created assessment of evidence meets the criteria. For each criterion, find details from the answer that offers evidence of how well each criterion is met, make helpful suggestions and offer an overall assessment.

Criterion #1: Thorough evidence: evidence includes both obvious and non-obvious details and evidence that the right is and is not respected.

Evidence from the sample answer

Suggestions for improvement

Criterion #2: Plausible conclusion: the conclusion is strongly supported by the evidence.

Evidence from the sample answer

Suggestions for improvement
